

Heavy-duty transport shelving unit

P/N: 0109735 | RTW/S 13-6/1897

HUPFER
we make work flow

Technical data

Modular dimension:	150 mm
Payload:	400 kg
Weight:	30.941 kg
Width:	1365 mm
Depth:	663 mm
Height:	1897 mm

Similar to illustration, technical modifications reserved. Without decoration.

The welded transport shelving unit is used for transporting and temporarily storing heavy loads.

The welded stainless steel transport shelving unit is used for transporting and temporarily storing heavy loads conveniently. The Hupfer transport shelving unit ensures an efficient work process in your logistics chain from delivery to the washing-up room.

The welded frame of the transport shelving unit provides a robust design and the shelves with a high load-bearing capacity. Various, available shelves broaden the storage and transport options based on your usage requirements. Shelf struts firmly welded into the uprights allow the shelves to be attached easily. Based on your requirements, you will receive the Hupfer transport shelving unit in smartly selected dimensions for small and large storage volumes. High-quality swivel castors ensure smooth movement and precise manoeuvring.

The materials used are sustainable, 100% recyclable and so valuable that Hupfer guarantees it will buy back your shelving at the end of its service life.

- Welded frame ensures robust design and high load-bearing capacity for the shelves
- Smartly selected dimensions allow a customised layout for standardised
