### Technical data

<b>Weight:</b>	2 kg
<b>Width:</b>	975 mm
<b>Depth:</b>	597 mm
<b>Height:</b>	29 mm

*Similar to illustration, technical modifications reserved. Without decoration.*

The reinforcement beams increase the stability and load capacity of the serving trolleys.

The reinforcement beams distribute the weight of the load evenly across the entire serving trolley. This minimises the risk of deformation or instability, especially with heavy or unevenly distributed loads. Thanks to the robust construction and the use of high-quality, recyclable stainless steel, the anti-sway bars ensure a long lifespan and hygienic cleaning of your serving trolley, even with intensive use.

- for an even distribution of the load
- increases the stability and load capacity of the serving trolley
- use of high-quality, recyclable stainless steel for long durability and hygienic cleaning
