Hupfer enables the easy organisation and secure transport of goods through the use of swivel castors with brakes. These castors promote efficient storage and the targeted movement of materials by providing stability and mobility.

Discover the swivel castor with brake Ø125 mm from Hupfer – the perfect solution for efficient logistics in the medical sector. This high-quality swivel castor features a robust stainless steel housing and antistatic properties that guarantee maximum safety and durability. With the practical brake, the swivel castor ensures stability and control, no matter where it is used. Ideal for transporting and organising sterile goods, the swivel castor simplifies every workflow. Optimise your logistics processes with the castor from Hupfer and experience the benefits of quality and functionality. Rely on Hupfer for your professional solutions!

- **Back hole:** Allows for easy assembly and attachment.
- **Ball bearing:** Ensures smooth and quiet movement.
- **Antistatic:** Reduces the buildup of static electricity, ideal for sensitive environments.
- **Stainless steel housing:** Offers durability and resistance to corrosion.
- **Locking mechanism:** Secures the wheel in position, providing stability and safety.
- **Diameter 125 mm:** Optimal size for versatile applications in gastronomy and medicine.
