

Swivel castor, plastic, □ 125 mm

P/N: 014000401 | LR Poly P3/125

HUPFER
we make work flow

Technical data

Payload:	100 kg
Weight:	0.6 kg
Width:	70 mm
Depth:	145 mm
Height:	165 mm

Similar to illustration, technical modifications reserved. Without decoration.

The swivel castor is used for mounting on mobile devices. The swivel castor allows for the mobility, steerability, and controllability of the devices.

The easy-running swivel castor made of high-quality plastic with stainless steel metal parts is designed for attachment to mobile devices. The Hupfer swivel castor ensures the mobility of mobile devices. The effortless rotation, steering, and positioning of the devices using the swivel castors increase the efficiency and safety of performing tasks in tight or crowded work areas. The robust swivel castor is equipped with a swivel bearing with a double ball race and allows for effortless handling of the devices, even with heavy loads. The wheel body is made of high-quality plastic and the tread is made of thermoplastic rubber. The swivel castor protects surfaces and ensures a flawless environment. The ball bearing and thread guard enable smooth and nearly silent mobility. The swivel castor is securely mounted to the device using a mounting plate, providing stability.

- Heat-resistant components made of stainless steel for wash plant suitability
- Durable plastic housing ensures longevity
- Swivel bearing with double ball race allows for effortless movement and precise control
- Ball bearings and thread protection provide near-silent and smooth operation
