Similar to illustration, technical modifications reserved. Without decoration.

Closed platform dispenser with height-adjustable platform for storing up to 16 stacks of ø 5.5-11.8" (140-300 mm) round crockery items and rectangular crockery items with edge lengths of 6.3-10.6" (160-270 mm).

Dispenser in self-supporting and hygienic design, made of high-quality stainless steel. Closed, smooth outer housing with one stacking compartment including compartment inner panelling consisting of vertical plastic-coated struts. Removable platform made of high-quality stainless steel, with ball bearing platform guide. Consistent output height thanks to manually adjustable stainless steel tension spring system. Easy cleaning of stacking compartment from above and via two cleaning openings in the base plate. Four massive polymer corner bumpers, of which two at the upper corners of the structure that serve as bumpers and protect the equipment on all sides as well as building-side walls from being damaged, with integrated, ergonomically-shaped push bars. Dispenser runs on 4 swivel casters of which 2 with total locks, ø 4.9" (125 mm), fastened by means of screw-on plates and several screws.

The Hupfer platform dispenser BD 60-60 has the largest usable stacking space in comparison to other products, while two push handles installed on the corners of the unit ensure optimal handling properties. The ergonomically shaped push handles also guarantee effective protection against injuries to the hands. The installation height of 900 mm is the standard working height in food distribution.
