<b>Weight:</b>	7 kg
<b>Width:</b>	470 mm
<b>Depth:</b>	470 mm
<b>Height:</b>	651 mm

*Similar to illustration, technical modifications reserved. Without decoration.*

Plate dispenser for installation into a worktop, for storing Ø 10.6-13.0" (180-330 mm) round plates in one stacking compartment.

Dispenser in robust and hygienic design, made of high-quality stainless steel. Open design for installation from above with shelf frame. Open stacking compartment and one stacking platform in plastic-coated rod design to prevent crockery discolourations. Stacking compartment with three plastic-coated crockery guides, variably adjustable without tools. Consistent output height thanks to manually adjustable stainless steel tension spring system. Easy cleaning of stacking compartment from above and via a cleaning opening in the base plate.

The Hupfer encounter plate dispenser EBR-TE 18-33 has an adjustable guide that protrudes 57 mm above the support frame and which can be fixed in a base plate, and the use of non-rusting stainless steel springs that are easy to insert and remove provides optimal adjustment options for different crockery diameters and loads.
