Trolley with one compartment, in robust, self-supporting and hygienic design, made of high-quality stainless steel square tubes, suitable for inserting into one another with other trolleys of this type. Welded U-shaped shelf rails with push-through and tilt protections on both sides as per DIN EN 18867-2. 4 polyethylene disc bumpers serve as bumpers and protect trolley on all sides as well as building-side walls from being damaged. The Hupfer gastronorm trolley RWG / E 1 / 18 GN 75-L-U has a low empty weight and therefore provides outstanding handling properties, while its rail spacing of 75 mm gives it a 50 % greater capacity (when GN containers without lids with a depth of 150 mm are placed in it).
