Technical data

Weight:	4 kg
Width:	1000 mm
Depth:	573 mm
Height:	90 mm

Similar to illustration, technical modifications reserved. Without decoration.

The wire rack for 2 Euro containers enables efficient storage and organisation of Euro containers by providing a clear separation between them. Additionally, the wire rack supports the safe transport of the containers by preventing them from slipping during transit.

1000 × 600 mm electro-polished stainless steel wire shelf for two 600 × 400 mm Euro containers. Shelf made of 35 × 10 × 3.0 mm longitudinal angle sections for hooking into uprights with a 75 mm pitch. Welded ø 6 mm cross wires in between, forming surface with approx. 16° forward inclination, welded with longitudinal reinforcements made of ø 5 mm wire. Additional welded 45 mm high ø6 mm wires as additional stops on the front and face and partition between the containers.
