Hupfer enables the easy transportation and organisation of loads. The swivel castor ensures efficient mobility and structured storage.

Discover the Ø125 mm swivel castor from Hupfer – the perfect solution for medical logistics. This high-quality swivel castor impresses with its robust stainless steel housing, which is not only durable but also suitable for sterilisation. With the practical mounting plate and integrated ball bearing, the swivel castor enables effortless mobility of your medical devices and transport trolleys. Thanks to its antistatic properties, the swivel castor minimises the risk of electrical charges, which is particularly advantageous in sensitive environments. Optimise your logistics processes with the Ø125 mm swivel castor from Hupfer – for efficient, safe, and hygienic handling. Trust in quality that moves!

- **Robust construction:** Stainless steel housing ensures durability and resilience.
- **Antistatic properties:** Prevents the accumulation of static electricity, ideal for sensitive environments.
- **Sterilisation compatible:** Suitable for cleaning and sterilisation, meets the highest hygiene standards.
- **Ball bearing system:** Ensures effortless manoeuvring and high load capacity.
- **Mounting plate:** Easy installation and stable attachment for various applications.
