

Swivel castor Ø125 mm

P/N: 0191443701 | LR Poly/St RI2/125 luftid sw

HUPFER
we make work flow

Technical data

Payload:	75 kg
Weight:	0.3 kg
Width:	130 mm
Depth:	59 mm
Height:	161 mm

Similar to illustration, technical modifications reserved. Without decoration.

The swivel caster is used for attachment to mobile devices. The swivel caster enables the mobility, steerability, and controllability of the devices.

The easy-running swivel castor made of high-quality plastic with zinc-plated steel parts is corrosion-resistant and designed for attachment to mobile devices. The Hupfer swivel castor ensures the mobility of portable equipment. The effortless turning, steering, and positioning of devices using the swivel castors enhance the efficiency and safety of task execution in tight or crowded work areas. The robust swivel castor is equipped with a swivel bearing with a double ball race and allows for effortless handling of the devices, even with heavy loads. The ball bearing enables near-silent and smooth mobility. The swivel castor is securely mounted to the device using a back hole, providing stability.

- Durable plastic housing ensures longevity - Swivel bearing with double ball ring enables effortless movement and precise control - Air-identical roller ensures smooth operation and robustness - Ball bearing provides near-silent and frictionless usability
