The swivel castor with brake is designed for attachment to mobile devices. The swivel castor with brake allows for mobility, steering, and control of the devices.

The easy-running swivel castor with brake made of high-quality plastic with zinc-coated steel parts is corrosion-resistant and designed for attachment to mobile devices. The Hupfer swivel castor ensures the mobility of mobile devices. The effortless turning, steering, and positioning of the devices using the swivel castors increase the efficiency and safety of carrying out tasks in tight or crowded work areas. The robust swivel castor is equipped with a swivel bearing with a double ball race and allows for effortless handling of the devices, even with heavy loads. The air-identical wheel combines the smoothness of air-filled tyres with the robustness of solid rubber tyres. The precision ball bearing enables nearly silent and smooth mobility. The brakes ensure the securing and stabilisation of the device's position. The swivel castor is securely mounted to the device using a mounting plate, providing stability.

- Durable plastic housing ensures longevity - Swivel bearing with double ball ring allows for effortless movement and precise control - Air-identical roller ensures smooth operation and robustness - Ball bearings provide near-silent and smooth maneuverability - Locking devices guarantee the securing and stabilisation of the device's position
