

Swivel castor with lock □125 mm

P/N: 0191445157 | LR Poly/St Rz2/125 luft mF

HUPFER
we make work flow

Technical data

Payload:	75 kg
Weight:	0.6 kg
Width:	130 mm
Depth:	59 mm
Height:	222 mm

Similar to illustration, technical modifications reserved. Without decoration.

The swivel castor is designed for attachment to mobile devices. The swivel castor enables the mobility, steerability, and control of the devices.

The smooth-running swivel castor made of high-quality plastic with zinc-coated steel parts is designed for attachment to mobile equipment. The Hupfer swivel castor ensures the mobility of mobile devices. The effortless turning, steering, and positioning of the equipment using the swivel castors increases efficiency and safety when carrying out tasks in tight or crowded work areas. The robust swivel castor is equipped with a swivel bearing with a double ball race and allows for easy handling of the equipment, even with heavy loads. The air-identical wheel combines the smoothness of air tyres with the robustness of solid rubber tyres. The ball bearing ensures smooth and nearly silent mobility. Brake locks allow for easy movement and precise manoeuvring. The swivel castor is securely mounted to the equipment using a round pin, providing stability.

- Swivel bearing with double ball ring enables effortless movement and precise control - Air-identical roller ensures smooth operation and robustness - Ball bearings provide smooth and nearly silent mobility - Locking mechanisms guarantee safe driving and securing
