Technical data

Weight:	0.7 kg
Width:	125 mm
Depth:	59 mm
Height:	222 mm

Similar to illustration, technical modifications reserved. Without decoration.

The swivel caster is used for mounting on movable equipment. The swivel caster enables the mobility and tracking accuracy of the equipment.

The easy-running swivel castor made of high-quality plastic and with metal parts made of galvanised steel is corrosion-resistant and is designed for attachment to mobile devices. The Hupfer swivel castor ensures the mobility and tracking accuracy of mobile devices. The mobility and ergonomics of the devices using the swivel castors accelerate work processes and provide flexibility in the arrangement in various work areas. The robust swivel castor allows for effortless handling of the devices, even with heavy loads. The sliding bearing enables nearly silent and smooth mobility. The swivel castor is securely mounted to the device using a round pin, ensuring stability.

- The impact-resistant plastic housing ensures rust resistance and durability. - The sliding bearing provides near-silent and smooth operation.
