Push-through protection, stainless steel epolished, for attaching to 70.8 × 19.7" (2000 × 600 mm) uprights.
Dimensions: 1865 × 522 mm

The push-through safety device for shelf supports in the form of a stainless steel grid serves to secure the stored goods laterally. The Hupfer push-through safety device for shelf supports is a robust and reliable safety device for maximum safety and efficiency in your warehouse. The cleverly designed construction allows for effortless and optional hanging and removal of the stainless steel grid on the shelf support. The push-through safety device is space-saving and enables the continued efficient use of the storage area. The stainless steel grid is electrolytically polished and particularly durable, easy to care for, long-lasting, and maintenance-free.
