Height: 925 mm

Similar to illustration, technical modifications reserved. Without decoration.

ISOBOX® Mobil Basic for transporting and dispensing meal components in GN containers or on GN 1/1 trays

Fully enclosed transport trolley in light and robust sandwich design made of aluminium sections with two compartments next to each other. Double-walled hinged door opens 270° to the outside, held open by magnets. Doors as well as closed rear and side walls in a choice of RAL colours, top cover (trolley top) made of stainless steel. Interior with two compartments next to each other for GN 1/1 containers or trays inserted lengthwise. Beaded side walls and a vertical profile as a tray stop on the rear of the interior made of completely pigmented polystyrene, suitable for all foodstuffs, can be used at any temperature from -10° to +70°C. Eight solid, round polypropylene bumpers at the lower and upper corners of the body very effectively protect both the trolley and the walls of the building from damage. Trolley moves on 2 swivel castors with total brakes, 2 fixed castors, with bolt hole attachment, 125 mm diameter.

The HUPFER® - ISOBOX® Mobil Basic 2/30 37.5 AP is highly flexible for the neutral transport of hot and passively cooled food.
