Technical data

Weight:	0.9 kg
Width:	670 mm
Depth:	80 mm
Height:	52 mm

Similar to illustration, technical modifications reserved. Without decoration.

Sieve basket for endoscope, with removable lid made of high-quality stainless steel wire, for cleaning, sterilisation, transport, storage and provision of an endoscope.

Sieve basket made of closed wire loops with top frame made of stainless steel wire, lid made of welded mesh with wire frame and safe twist lock. A sturdy ocular holder with replaceable silicon inserts in the basket, together with the corresponding locking pins on the lid, ensures perfect fixation and optimum protection of the endoscope optics even during cleaning, disinfection and sterilisation processes.
