Height:	1657 mm

Similar to illustration, technical modifications reserved. Without decoration.

Hook trolley for transport and storage of sterile supplies baskets and other items suitable for being attached to hook trolleys.

Trolley made entirely of high-quality stainless steel, robust, self-supporting and hygienic design. Two tubular frame racks consisting of square tubes with curved corners, outer faces with welded hook pairs for attaching e.g. sterile supplies baskets. Inner surfaces of tube frames fitted with shelf bolts for attaching insert rails or insert frame sets for baskets or 1/2 STE containers. Trolley base made of square tube brackets with curved corners. 4 polyethylene disc bumpers serve as bumpers and protect trolley on all sides as well as building-side walls from being damaged. Trolley runs on 4 swivel casters of which 2 with total locks, with pin fastening.

- High-quality stainless steel ensures a durable, hygienic, and corrosion-resistant construction
- Double-sided pairs of hooks allow versatile hanging of sterilisation baskets and other hanging parts
- Welded support pins guarantee secure holding of sliding rails and frames for optimal organisation
- Polyethylene bumper rollers protect the trolley and surroundings from damage due to collisions
- Four swivel castors, two with total locks, provide high mobility and a secure stand during transport and use
