Technical data

Weight:	0.5 kg
Width:	290 mm
Depth:	80 mm
Height:	52 mm

Similar to illustration, technical modifications reserved. Without decoration.

Sieve basket for endoscope, with removable lid made of high-quality stainless steel wire, for cleaning, sterilisation, transport, storage and provision of an endoscope, with additional L-wire for holding accessories and connections.

Sieve basket made of closed wire loops with top frame made of stainless steel wire, lid made of welded mesh with wire frame and safe twist lock. A robust ocular holder with replaceable silicone inserts in the basket ensures, along with appropriate locking pins on the lid, perfect fixing and optimum protection of endoscope optics also during cleaning, disinfection and sterilisation processes. An additional L-shaped wire enables easy integration of accessory parts and connections.
