Technical data

Similar to illustration, technical modifications reserved. Without decoration.

The 3-sided gallery is used for the storage and interim storage of transport goods on the roof of your sterile goods or container transport trolley.

The 3-sided gallery provides a 3-sided protection for the roof of your sterile goods or container transport trolley. This allows for an additional up to 25 kg of transport goods to be stored or temporarily stored on the roof. The gallery consists of gallery supports made from solid plastic material and wires made from high-quality, recyclable stainless steel. The materials used and the robust construction ensure a long lifespan for your gallery.

- additional space for up to 25 kg of transport goods
- use of high-quality materials and solid plastic for long durability and hygienic cleaning

Time and date of the request:
09.05.2025, 15:48:48
