Similar to illustration, technical modifications reserved. Without decoration.

Open basket dispenser with height-adjustable platform for storing two stacks of sterile supplies baskets.

Dispenser in self-supporting and hygienic design, made of high-quality stainless steel. Closed base plate folded on all sides. Installed on top is a closed spring case with a height-adjustable closed platform with continuous upstand, ball bearing platform guide and two curved longitudinal brackets made of square tubes as reinforcement on the underside. Consistent output height thanks to manually adjustable stainless steel tension spring system. Four massive polymer corner bumpers, of which two at the upper corners of the structure that serve as bumpers and protect the equipment on all sides as well as building-side walls from being damaged, with integrated, ergonomically-shaped push bars. Dispenser runs on 4 swivel casters of which 2 with total locks, Ø 4.9" (125 mm), fastened by means of screw-on plates and several screws.
