The wire mesh tray provides a ventilated, hygienic surface for sterile goods during transport.

The wire mesh cover for the sterile goods transport trolley STW-9 is the perfect solution for hygienic transport. It ensures optimal ventilation and protects the sterile goods. The stable surface can be effortlessly hung without tools and keeps everything securely in place. Thanks to the use of high-quality, recyclable stainless steel and its robust construction, the wire mesh cover is also durable with frequent use and can be easily cleaned hygienically.

- ensures optimal ventilation
- can be hung without tools
- made of high-quality, recyclable stainless steel for long durability and hygienic cleaning
