Payload:	50 kg
Weight:	50 kg
Width:	837 mm
Depth:	576 mm
Height:	1720 mm

Similar to illustration, technical modifications reserved. Without decoration.

Closed hook trolley for dust-protected transport and storage of suture material trays, glove dispensers and other items suitable for being attached to hook racks.

Trolley in robust, self-supporting and hygienic design, consisting of a frame and double-wing doors made of anodised aluminium with stainless steel door handles, disinfectant-resistant acrylic glass panes and magnetic catches. Top, rear and side panels as well as chassis made of high-quality stainless steel. Interior with two rear shelf rails with four screwed and thus height-adjustable hooks each, for attaching e.g. suture material trays or baskets. Four massive polymer corner bumpers serve as bumpers, are effective also with the doors open and very effectively protect the equipment on all sides as well as building-side walls from being damaged. Trolley runs on 4 swivel casters of which 2 with total locks, fastened by means of screw-on plates and several screws.
