The tall cabinet with hinged doors and height-adjustable shelves is designed for the safe storage of sterile and consumable goods.

MediFurn tall cabinets provide space for safe storage and guarantee clarity, versatility, and easy handling. The hygienic construction made of high-quality stainless steel ensures excellent durability and easy cleaning in demanding environments. The height-adjustable shelves can be precisely adapted to various types of stored goods. The hinged doors allow for quick and secure access to materials at any time and effectively protect against dust and light. The viewing window enables quick identification of the contents without having to open the cabinet. The tall cabinets are designed to accommodate closed trays or wire mesh trays.

- High-quality processing of premium stainless steel ensures perfect hygiene and easy cleaning. - The tall cabinet offers space for the protected storage of sterile and consumable goods. - Intermediate shelves can be adjusted to different heights without tools. - Swing doors for quick access and effective protection against dust. - Viewing window for quick identification of the contents. - Can be equipped with solid or wire rack overlays.
