Technical data

Weight:	120 kg
Width:	938 mm
Depth:	650 mm
Height:	2000 mm

Similar to illustration, technical modifications reserved. Without decoration.

The tall cabinet with module support is used for safely storing sterile goods and consumables in modular and sterile goods baskets.

MediFurn tall cabinets provide space for safely storing items and are also tidy, versatile and easy to use.

The hygienic, high-quality stainless steel design ensures excellent durability and easy cleaning in demanding environments.

The hinged doors provide quick and secure access to material at all times and effective protection against dust and light. Internal polymer panels in ISO standard format for holding modular and sterile goods baskets make handling the stored goods easier.
